### **Bridgeport Hospital names two vice presidents**

Bridgeport Hospital has promoted Administrative Director of Support Operations Marc Brunetti of Milford to Vice President, Support Operations, and Administrative Director of Clinical Services Patrick Schmincke of Middlebury to Vice President, Clinical Administration.

In a memo announcing the promotions, Executive Vice President and Chief Operating Officer Norman Roth called Brunetti and Schmincke “extraordinary leaders who have consistently demonstrated exemplary achievements.”

“Both have significant scope of responsibility and their achievements have helped made Bridgeport Hospital a better organization,” Roth said in the memo.

Brunetti joined the Bridgeport Hospital staff in 1994 after graduating from the hospital’s School of Nursing. He held nursing positions in the Float Pool and on the Cardiology Unit, and was also a Patient Care Services Administrative Manager. In 2000, he was promoted to Director of Cardiology and in 2007 became Administrative Manager of Support Operations, where he has led Environmental Services, Food and Nutrition, Patient Escort, Materials Management, Security and Parking, and Telecommunications. Brunetti recently took on the additional role of on-site leader for Plant Engineering and Design/Construction Services.

Schmincke began his career in Yale New Haven Health System as an Emergency Management Coordinator. Soon after, he was promoted to Director of Bridgeport Hospital’s Ahlbin Rehabilitation Centers and Operations Division. Ambulatory Operations was later added to his scope of responsibility. He was promoted to Administrative Director of Clinical Services in 2007 and in that role has led many specialty services including the Pharmacy, Center for Sleep Medicine, Respiratory Care, Radiology and Radiation Oncology, the Laboratory, Rehabilitation Services and the hospital’s ambulatory clinics.

#####

Bridgeport Hospital is a member of Yale New Haven Health System (YNHHS), the largest and most comprehensive integrated health care delivery system in Connecticut.
