

**TESTIMONY OF  
STEPHEN A. FRAYNE  
VICE PRESIDENT OF FINANCE AND INSURANCE SERVICES  
CONNECTICUT HOSPITAL ASSOCIATION  
BEFORE THE PUBLIC HEALTH COMMITTEE  
Thursday, March 4, 2004**

**HB 5530, An Act Concerning Restoration Of Benefits And Services  
Under The Medical Assistance Program**

Good afternoon Senator Murphy, Representative Feltman, and members of the Public Health Committee. I am Stephen Frayne, Vice President, Finance and Insurance Services at the Connecticut Hospital Association (CHA). CHA and its members appreciate the opportunity to present testimony in support of **HB 5530, An Act Concerning Restoration of Benefits and Services Under the Medical Assistance Program**. CHA supports this bill.

Over the past several weeks, I have testified before the Appropriations Committee, the Human Services Committee, and joint meetings of the Appropriations, the Human Services, and the Public Health Committees. In each instance, CHA has asked the legislature to resolve to:

- repeal last year's HUSKY, State-Administered General Assistance (SAGA), and Medicaid changes, as well as cuts to the Uncompensated Care Pool;
- reject efforts to eliminate transitional Medicaid and non-critical dental services;
- require, as a minimum, provider-hold-harmless protection before permitting a restructuring of the managed care pharmacy, dental, and behavioral health benefits; and
- support rate increases that bring payments in line with costs for inpatient and outpatient providers.

As drafted, HB 5530 makes it clear that you have heard our plea and want to help.

The major restructuring of human services programs over the past several years has been portrayed as necessary to protect and pay for important safety net programs into the future because increases in the cost of providing healthcare are reducing the amount of money available for other services. We respectfully disagree.

Eliminating coverage for HUSKY Adults, cutting funding for SAGA, shifting SAGA's insurance-risk to providers, imposing co-pays (that in general are uncollectible), eliminating continuous, guaranteed, and presumptive eligibility, restructuring HUSKY coverage, cutting funding for the Uncompensated Care Pool, eliminating transitional Medicaid, and eliminating non-critical adult dental services do not today, nor in the future, protect the safety net. These strategies, by definition, reduce state funding for insurance coverage and add more of Connecticut's citizens to the rolls of the uninsured and under-insured.

As a consequence of changes already enacted, excluding the potential catastrophic effects of a projected massive disenrollment of 93,000 individuals from Medicaid as a result of premium cost

sharing, Connecticut's hospitals will have to provide an additional \$55.4 million in free care during the biennium. Thereafter, Connecticut's hospitals will have to annually provide an additional \$58.2 million in free care. (Attached to this testimony are seven spreadsheets that illustrate the impact on Connecticut hospitals of recent changes to state-funded healthcare programs.)

At the end of this biennium budget period, it will have been eight years since a Connecticut hospital has had a cost of living adjustment in the Medicaid fee-for-service system. We believe there is no better time than now - when the state and national economies appear to be improving - to fundamentally shift course to stabilize Connecticut hospitals and other providers vital to the state's safety net programs and to provide healthcare services to those most in need.

The state relies on hospitals to be the healthcare safety net for all those needing care, regardless of their ability to pay. Hospitals rely on the state to be the insurer of last resort for Connecticut's most vulnerable citizens. These are separate roles but inseparable obligations.

CHA urges you to support HB 5530 because it:

- increases the level of Medicaid payment for hospital services to cost;
- makes hospitals and the patients they serve a priority by reinstating continuous, guaranteed, and presumptive eligibility under the Medicaid program, and the restoration of covered services and eligibility under the Medicaid and SAGA programs; and
- fulfills the state's obligation to be the insurer of last resort for Connecticut's most vulnerable citizens, rather than shifting this burden to providers.

Connecticut's hospitals are there for all of us, 24 hours a day, 7 days a week. CHA is asking you to be there for hospitals this legislative session. Please vote yes on HB 5530 and repair the damage to Connecticut's healthcare safety net.

Thank you for consideration of our comments.
