192 Yale-New Haven Hospital physicians among *Connecticut Magazine's* "top docs"

NEW HAVEN, CT, April 9, 2010 - *Connecticut Magazine* recently named 192 Yale-New Haven Hospital (YNHH) physicians among the best in the state in its 11th annual "Top Doctors" issue. The YNHH doctors, who provide a wide range of specialties, were among 757 doctors throughout the state selected from the results of a questionnaire sent to 5,000 Connecticut physicians and then combined with *Connecticut Magazine's* surveys from 2007-2009.

Spanning 25 areas of expertise, from allergy & immunology to urology, the "top docs" issue serves as a guide for patients seeking the best in medical care.

"We're proud to receive this recognition by *Connecticut Magazine*," said Peter N. Herbert, MD, chief of staff at Yale-New Haven Hospital. "The fact that almost 25 percent of the top physicians in the state are affiliated with Yale-New Haven Hospital is an indicator of the high level of expertise and quality of care our medical staff provides on a daily basis."

The list of Yale-New Haven Hospital physicians from *Connecticut Magazine's* April 2010 "Top Doctors" issue is attached. For an electronic listing, go to
