Hospital for Special Care Appoints Pediatrician Specialist for Complex Unit

NEW BRITAIN, Conn. (Jan. 15, 2013) – [Hospital for Special Care](#) (HSC) has hired Michelle Litsky, D.O., FAAP, as Staff Pediatrician for its Complex Pediatric Care Program, a 29-bed unit designed to meet a variety long-term healthcare and developmental needs of children up to age 18. Many of the children in the program are technology-dependent and require specialized care.

In her new position, Litsky will be responsible for the management and care of patients in the pediatric unit.

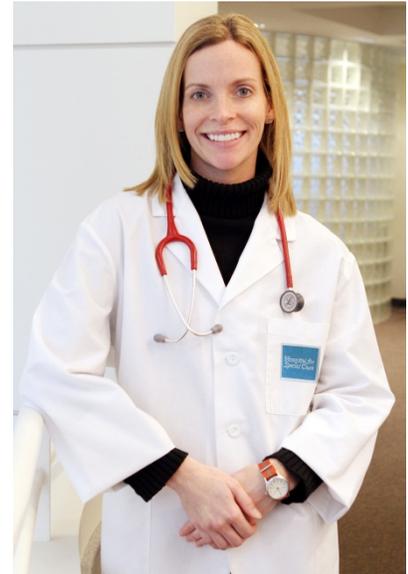

“Care in this unit goes far beyond the medical; it encompasses physical, emotional and intellectual development that is so much a part of a child’s formative years,” said [John Votto](#), DO, FCCP, president and CEO, HSC. “With her extensive expertise in pediatrics and keen knowledge in the importance educating parents and family members, Dr. Litsky will be a tremendous asset and advocate for our youngest patients.”

Prior to joining HSC, Litsky was a Pediatric Hospitalist and Emergency Room Physician at Holy Redeemer Hospital in Philadelphia. She graduated from Philadelphia College of Osteopathic Medicine and completed her residency at Thomas Jefferson University Hospital.

Litsky currently resides in North Haven, Conn. with her husband and daughter.

About Hospital for Special Care

Hospital for Special Care (HSC) is one of the 10 largest, free-standing long-term acute care hospitals in the United States and the nation’s only long-term acute-care hospital serving adults and children. HSC is recognized for advanced care and rehabilitation in pulmonary care, acquired brain injury, medically-complex pediatrics, neuromuscular disorders (including ALS research), spinal cord injury, comprehensive heart failure as well as diagnostic, assessment and consulting services for children and adolescents with Autism Spectrum Disorders.

Located in New Britain and Hartford, CT, HSC operates inpatient and outpatient facilities serving Southern New England on a not-for-profit basis. For the latest news and information, please visit www.hfsc.org, and follow us on Twitter [@HospSpecialCare](https://twitter.com/HospSpecialCare).
