Saint Mary's Hospital Among Connecticut's Most Wired

WATERBURY, Conn. (November 13, 2018) Saint Mary's Hospital was selected as a 2018 Most Wired winner according to Healthcare's Most Wired 2018 survey.

Seven Connecticut hospitals are among the over 250 organizations earning the Most Wired recognition. The recognition is given to hospitals and health systems that are at the forefront of using healthcare information technology to improve delivery of care. In addition to Saint Mary's Hospital, two other hospitals in the Trinity Health Of New England regional health ministry – Johnson Memorial Hospital and Saint Francis Hospital and Medical Center - have received this recognition.

"Saint Mary's Hospital, like the other organizations in our regional health ministry, is committed to implementing the latest in healthcare technology to improve patient care," says Regional Information Services Director for Trinity Health Of New England, Matthew Krenicky.

Saint Mary's Hospital launched its Epic electronic health record system in 2017 and continues to look for ways to improve patients and physicians ability to access and monitor health records. In addition, Saint Mary's employs analytics tools to help manage population health.

Healthcare's Most Wired survey recognizes hospitals that are using smart phones, telehealth and remote monitoring to create more ways for patients to access healthcare services and to capture important patient health information.

The report identifies key emerging technology trends, a focus on integration, interoperability, security and disaster recovery and the use of transformational technologies to support population health management, value-based care, patient engagement and telehealth.

About Saint Mary's Hospital

Saint Mary's Hospital is a Catholic, not-for-profit, acute care, community teaching hospital that has served Greater Waterbury since 1909. In 2016, Saint Mary's Hospital became part of Trinity Health Of New England, an integrated health care delivery system that is a member of Trinity Health, Livonia, Michigan, one of the largest multi-institutional Catholic health care delivery systems in the nation serving communities in 22 states. Licensed for 347 beds, Saint Mary's is designated as a Level II Trauma Center, offers award-winning cardiac and stroke care and houses the region's only pediatric emergency care unit. As the leading provider of surgical services in Greater Waterbury, Saint Mary's was the first to introduce the daVinci® Robotic Surgery System. The hospital's satellites and affiliates extend from Waterbury to Wolcott, Cheshire, Naugatuck, Southbury, Prospect and Watertown.
