Please join us for CHA's first forum designed to help Connecticut healthcare leaders learn about Go-Green initiatives and practices. National and regional experts in the field, and other Connecticut hospital leaders will offer their perspectives on a wide range of topics and practical applications members can bring back to their organizations. We invite hospital teams made up of all clinical, operational, and administrative disciplines to join us to broaden their “green-thinking” horizons for a day of sharing successes, best practices, and information on hospital Go-Green-specific programs and activities that are under way or being planned in Connecticut and across the nation.

**Tuesday, March 17, 2009**

*Registration and Breakfast: 8:30 a.m. - 9:00 a.m.*  
*Program: 9:00 a.m. - 3:30 p.m.*

*at*

Connecticut Hospital Association  
110 Barnes Road  
Wallingford, CT 06492
Did you know that:
- One recycled glass bottle would save enough energy to power a computer for 25 minutes?
- Up to 80% of a vehicle can be recycled?
- On average, 16% of the money you spend on a product pays for packaging, which ultimately ends up in the trash?

Translating the Go-Green principles of reduce, reuse, and recycle into practical actions that improve health, protect the environment, and lower operational costs is a win-win goal for everyone. This program will help everyone begin the “greening” journey.

Keynote speaker:

Janet Brown is Director, Sustainable Operations, and leads environmental improvement activities for membership facilities for Practice Greenhealth. Janet coordinates a monthly Greening Operations webinar series and is on the Steering Committee of the Green Guide for Health Care and Planetree’s Design Advisory Council. Prior to joining Practice Greenhealth, she coordinated healthcare environmental management programs for Beth Israel Medical Center in New York City from 1991 – 2004. Beth Israel received numerous awards including the EPA’s Environmental Quality Award in 2001.
